

# 10-Minute Walk Impact Report

The Trust for Public Land

November 5, 2020

Page 1 of 2

## Project Areas

Central Village Park

All statistical results are aggregated for the listed project areas and their service areas. Service areas are based on 10-minute (1/2 mile) walk times from project access points defined for each project area and based on the walkable road network. **Accuracy of demographic calculation diminishes outside of cities, where population served may be underestimated.**

For TPL staff only: Acres listed for Land Protection Projects are official from Finance, while Park Development Project acres are estimated based on GIS calculations.

Area Statistics	Value
Project Area Count	1.00
Project Acres	7.79
Service Area Acres	469.06

## Map Legend

- Access Points
- User-Defined Project Boundary
- 10-minute walk service areas
