PROJECT DETAILS & BACKGROUND

- The Regional Park Plan process allows residents to help develop the plan in partnership with Parks & Recreation, informing what is planned for the park and having a clearer understanding of how it will affect them.
- The last Plan for Como Regional Park was completed in 1984, though many improvements have been made to the Park since.
- The focus of the plan will be on reviewing and improving the trail system within Como Regional Park and its connections to the larger Grand Round trail network of Saint Paul.

PROJECT GOALS

- Improve connections between the trails within the park to Saint Paul's Grand Round trail network.
- Clarify pedestrian, bicycle and mixed-use routes throughout Como Regional Park.
- Engage and incorporate community voices during design of the project.
