

Como Regional Park Advisory Committee Meeting
Como Streetcar Station – June 12, 2012

The primary agenda item was the discussion with Visual Communications, the Signage and Wayfinding Vendor. Notes are attached from that discussion.

Also attached is a draft of the letter that Co-chair, Parks Commissioner Dan Marckel plans to send to the Transit Planning Team regarding the proposed transit route 83.

General updates were provided on the following:

- Como Regional Park Play Area – on schedule for fall completion
- Como Pool Grand Opening – a HUGE success, some issues with long lines and enough parking. The pool was tested and did very well. There are some ways we can improve service during long waits.
- Music in the Parks is in full swing, schedules available on-line at www.stpaul.gov/parks
- We will work with Planning and Economic Development to get a presentation about route 83 when plans become final.

The next meeting is scheduled for Tuesday, July 10 at 6:30.
