

Join your neighbors in shaping the future of the West Side Flats!

The City of Saint Paul, with the assistance of a community task force, is updating the 2001 West Side Flats Master Plan and Development Guidelines. The Master Plan and Development Guidelines will guide future development of the area bounded by Wabasha Street, Plato Boulevard, Highway 52 and the Mississippi River. The updated plan will address urban design, land use, public space, public art, river access, pedestrian and bicycle mobility, transportation and parking, stormwater management and sanitary sewer capacity.

The first draft of the updated plan is ready for your comments! Please attend the community open house and give us your thoughts on this important plan that will quide the future of the West Side Flats!

Background information and related documents will be available starting October 28, 2013, at www.stpaul.gov/westsideflats

PLEASE VISIT THE CITY'S WEBSITE AT **<u>www.stpaul.gov/open</u>** TO TELL US WHAT YOU THINK OF THE DRAFT MASTER PLAN.
