SLOPE & RIVER
SETBACKS

Based off of a 1 m Digital Elevation Model

- MRCCA Boundary
- Nonconforming Structures (under draft MRCCA Rules)
- Structures
- Water
- Ordinary High Water
- Section Lines
- Very Steep Slopes
- Slope Preservation Zone
- 40' Slope Setback
- 100' Slope Setback
- River Setback from OHW

40' & 100' setbacks were calculated from very steep slopes instead of a bluffline or very steep slope line. Some of those setbacks are located on the toe of the slope. To correct for this, buildings impacted by the setbacks from the slope toe have been removed.

Buildings that are impacted by man made slopes have not being identified as nonconforming.
