Local Government Aid (LGA): Begun in 1971, this program was designed to provide indirect property tax relief through the redistribution of income tax and sales tax revenues collected at the state level to local units of government. The amount of funding received by local units of government is based on a distribution formula determined by the Minnesota State Legislature. The distribution formula is based on "need" as well as "capacity". The 2001 State Legislature rolled the Homestead and Agricultural Credit Aid into Local Government Aid.

Municipal State Aids (MSA). This program is financed by motor vehicle related taxes collected at the state level. The state gasoline tax is the largest revenue source and the dollars collected are constitutionally dedicated for expenses related to MSA routes. The revenues are redistributed back to municipalities of 5,000 or more residents to be used for construction and maintenance of their MSA designated routes.

Tax Increment Financing (TIF) District: A TIF district is a designated geographical area where a city is undertaking redevelopment or development activity. Any increase in assessed valuation due to new development activity is captured by the district. Public improvement costs can be financed by issuing bonds or by a pay-as-you-go plan.
