**Subject:** RE: Area C Groundwater Sampling Workplan

Thanks Ryan, the Area C Groundwater Sampling Work Plan is approved.

For reporting:

- Please also include field notes, QA/QC report, etc., as was done for the recently submitted sampling report for the Dec 2017 event;
- Include a cross-section showing the elevation of the water table below Area C relative to the industrial waste, based on the highest recorded water level at AMW-26 during that quarter. If the data show that the water table would have been in contact with the industrial waste at any time during that quarter, please comment on how long that condition existed, based on the hydrograph for AMW-26.

**Subject:** Area C Groundwater Sampling Workplan

Amy,

Attached is a work plan for proposed groundwater monitoring activities around Area C. Please let me know if you have any comments or questions.

Regards,

Ryan
